

Placement and Career

Placement Statistics

MNIT Jaipur has a strong placement record with the highest package in 2024-25 reaching ₹64 LPA and an average package of ₹11.06 LPA for undergraduate students. Postgraduate students also performed well, securing an average package of ₹10.28 LPA. The Computer Science and Engineering department led placements, with 75 students securing offers, including the highest package. Overall, the institute saw over 726 students placed across various UG and PG programs in 2024-25

Top Recruiters

Top recruiters at MNIT Jaipur include global companies like Apple, JP Morgan, and Mercedes-Benz, alongside major Indian organizations such as Tata Steel and Reliance. Tech firms like Qualcomm, Oracle, and Adobe regularly hire from the campus. The recruitment drive also attracts companies from diverse sectors such as finance, manufacturing, and R&D

Internship Opportunities

MNIT provides robust internship opportunities through partnerships with leading firms. Students often secure internships in their third year, leading to pre-placement offers (PPOs). Companies like Samsung, Deloitte, and Visa offer significant roles to interns, ensuring exposure to real-world challenges and work environments

Career Support Services

The institute's Training and Placement Cell actively supports students in securing jobs and internships. It organizes workshops, mock interviews, and networking events to enhance students' employability. The cell ensures a streamlined recruitment process and fosters connections between students and recruiters

Alumni Success Stories

MNIT alumni have achieved significant success globally, contributing to sectors like technology, management, and research. The alumni network strengthens the institute's

industry connections, often facilitating mentoring sessions, guest lectures, and collaborative projects

Industry Connections

MNIT Jaipur maintains strong ties with industry leaders, which enhances placement and internship opportunities. Regular interaction with industry experts through seminars and workshops keeps students updated with current trends and expectations
